读大数时，看数字中的“逗号”，每三个数字一个逗号

- ✓ 000 thousand | 000,000 million | 000,000,000 billion
- ✓ 000,000,000,000 trillion

105: one hundred and five

125: one hundred (and) twenty-five

1,005: one thousand and five

1,025: one thousand and twenty-five

1,205: one thousand, two hundred and five

1,200: one thousand, two hundred

105,225: one hundred and five thousand, two hundred (and) twenty-five

3,122,202: three million, one hundred and twenty-two thousand, two hundred and two

3,000,225: three million, two hundred (and) twenty-five

4,300,100,020: four billion, three hundred million, one hundred thousand, (and) twenty

太长的复杂数字可以选择“断尾”

e.g. 1,205 变成 1,000

大数

常见数字 & 单位

- ✓ 小数点后面的数字需要按照位数依次读出；
- ✓ 百分数：在读完数字后加一个per cent（不是percentage）
- ✓ 货币单位：在读完数字之后加货币单位即可

123.45	one hundred (and) twenty-three point four five
123.456	one hundred (and) twenty-three point four five six
2.45%	two point four five per cent
2.345%	two point three four five per cent
$2.3	two point three dollars
€2.3	two point three euros

小数点之后，可以选择“断尾”

e.g. 2.45 变成 2
